FLUENCY IN
ENGLISH IS TODAY'S
GLOBAL NEED

As an institute you would love all your students
to speak fluently in English.

LET'S TALK ABOUT HOW TO TALK RIGHT

CHALLENGES IN TEACHING SPOKEN ENGLISH

Getting Expert Spoken English Faculty

Structured Teaching Material

Defined Teaching Methodology

“Teaching Spoken English is a different ball game. It requires structured teaching material and defined teaching methodology that can bring communicative English to the tip of the tongue.

Although the English teachers of every school are experts in Literature and Grammar, but they are too overloaded to go into the intricacies of teaching Spoken English.”

A SOLUTION TO YOUR PROBLEM

IS THE “MOTHER TONGUE METHOD”
of learning a language.

“A child learns his/her mother tongue without learning Grammar, by just listening and repeating”.

- Similarly Talk Right focuses on listening and repeating communicative English, with least focus on definitive Grammar, till the language is on the tip of the tongue like in 'mother tongue method'.
- It does not require an Expert Spoken English faculty and can be managed by a teacher who can read and speak in English.

FEATURES OF TALK RIGHT LANGUAGE LAB

- 'Talk with me' option, where a student can go into conversation with the system.
- Exclusive Mobile App for each Student for access and practice from home.
- Conversation Practice Book for reference and practice.
- Pronunciation Checker for improving pronunciation.
- Exclusive Grammar section for academics.
- Added section for listening practice

ADVANTAGES OF TALK RIGHT LANGUAGE LAB

- Students get to speak continuously with no scope for hesitation.
- 90% of class time of each child is devoted to listening and speaking, which is not possible in a traditional method. As a result the communicative language comes to the tip of the tongue, even without the knowledge of the rules of Grammar like in the 'Mother Tongue Method'.
- It is a self-guided audio-video program with subtitles in English and Hindi that allows systematic and structured conversation practice about all aspects of life.
- This Software allows a student to see and listen to the conversation of various characters and they can also select and role-play any character, thus making the student a part of the conversation.
- A student can record the conversation with the system and listen to it for correcting the pronunciation.
- It allows option of studying Grammar for academic knowledge.
- It also has a section for improving vocabulary and better use of idioms and phrases.

Set up a Talk Right Language Lab to give an effective solution to today's 'Global need' of learning to speak fluent English
